Memo # U2122-075
18 May 2022

Memo to : All Employees
Subject : Onsite Work in June 2022

It's been close to three months since we headed back to our respective offices on a rotational work schedule. Seeing our colleagues again after a long time has been an opportunity to renew ties. Working with them face to face as regulated by our guidelines has energized our interactions that were limited onscreen most of the time. Coming back to the campus as a community, albeit not in full force yet, has lifted our spirits in more ways than we know.

With our steady observance of health protocols, our gradual return onsite has been uneventful so far. We now move around in a less restrictive manner both within our campus and in a more open environment in general. Following health protocols has, by this time, become second nature to us. As such, we look forward to maintaining Alert Level 1 which has continued to be in place since March 1. The gains from our pilot run that coincided with the declaration of Alert Level 1 can now usher in our full return onsite come 6 June 2022. We trust that each of us will continue to do our share and cooperate in keeping a safe environment for all.

These attached guidelines for full onsite work are being issued as a reminder to everyone to not let our guard down despite what we feel to be a safer environment. Let us commit to follow these guidelines to ensure the full return of a thriving campus life and community as we enter a new fiscal year.
