Subject : Santa Rosa Campus temporarily closed due to unhealthy atmospheric
conditions
Memo No. AGSB-OD-2425-010

To our students and staff in the Santa Rosa Campus, and professors with scheduled onsite classes there, we will be closing the campus today, Monday, August 19, due to the unhealthy conditions in the atmosphere brought about by the volcanic activity in Taal.

This week, there are three onsite classes scheduled for Thursday and one onsite class for Saturday. We will continue to monitor the situation and inform the Santa Rosa students through your Santa Rosa-bound professors, on whether your onsite classes will push through.

To everyone in the area, take care, and we pray that the situation improves.
